**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### DETAILED ACTION

1. This application has been examined. Original claims 1-23 are pending. The rejections are as stated below.

#### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-23 are rejected under 35 U.S.C. 102(b) as being anticipated by Cannon et al. US Pat. No. 5,748,484 A.

Claims 1-23, Cannon teaches a method for providing on-line designing of goods or services comprising the steps of: maintaining a frequent visitor database for storing frequency visitor information of authorized users, providing an on-line access to a virtual design studio, requiring registration of users to the design studio so as to qualify as authorized users, allowing authorized users to select between a variety of design formats or a shopping mode for existing designs in the virtual design studio, allowing authorized users in one of the variety of design formats access to preexisting design

elements maintained in a design element database to aid in forming a design in a selected design format, or allowing authorized users to add their own design elements to a selected design format, and receiving acceptable designs from authorized users for storage of the acceptable designs in a storage database (column 7, line 20 thru col. 20, line 36).

Cannon teaches the steps of allowing authorized users to discard unacceptable designs, or publish acceptable designs, allowing users to select between a new design format, a continue existing design format, or a redesign of a stored design format, allowing authorized users to order an acceptable design from a supplier, allowing a supplier to manufacture, or have manufactured, the acceptable design, sampling a design in a created object before entering the design studio, and allowing a supplier to discard published designs that are unattractive to a market place (column 7, line 20 thru col. 20, line 36).

### ***Conclusion***
